

Luísa Cezar Frade Nogueira

Front-end Developer and UX Designer

✉ lufradenogueira@gmail.com

📍 Vienna, Austria 🐙 [GitHub](#) 🔗 [LinkedIn](#)

A skilled Front-End Developer and Visual Designer with six years of experience building and improving websites and applications. Proficient in JavaScript, TypeScript, CSS and React. Also worked extensively with applications built with Node.js. Experienced in agile collaboration with cross-functional teams and adept at translating brand messaging into intuitive, visually compelling user experiences. I hold values of integrity, courage, and empathy at the forefront of my work.

I co-developed Lubeno, a version control forge designed to simplify collaboration for developers using Git and Jujutsu (jj). Check it out! <https://lubeno.dev/>
